LifeReady
FIRST AID TRAINING

# Here's where we're at, and what I need from you

Everything I can do without you is done. The list below is what's left, and most of it is quick answers.

**Website:** live at lifereadyfirstaid.co.uk with a "booking opens soon" message.

**Booking system:** built, tested and running in test mode. It goes live on the main address once your prices, dates and Stripe account are in.

**Socials:** Facebook, Instagram and LinkedIn are set up. TikTok needs your phone for the code.

**This folder:** your logo files, print-ready leaflets, the choking poster, course ads and social images.

## Quick answers (a text is fine)

- [ ] **Business mobile number.** It goes on the website, the leaflets and your Google listing. The leaflets are ready to print as soon as I add it.
- [ ] **Price for each course.** Baby and Child, First Aid for Everyone, Paediatric (2 days), Emergency First Aid at Work, First Aid at Work, CPR and defibrillator.
- [ ] **Venue for open classes,** and the first dates you want people to book.
- [ ] **Workplace deposit and cancellation policy.** For example 30% deposit, and what happens if someone cancels late.
- [ ] **VAT registered, yes or no.**
- [ ] **The free refresher offer.** It's on the nursery leaflet and the thank-you card: a free top-up within 12 months for teams who book paediatric first aid. Happy with that?
- [ ] **OK to show the build in my portfolio?** No names or photos of you, just the system.

## Things to set up (we can do these together)

- [ ] **Stripe account in your name,** so bookings pay straight into your bank. Sign up at stripe.com with bookings@lifereadyfirstaid.co.uk. It asks for photo ID and your bank details, so you do this part yourself.
- [ ] **Google Calendar.** Tell me which Google account you want bookings to appear in, and I'll connect it.
- [ ] **TikTok.** 5 minutes with your phone so you can type the code in yourself.
- [ ] **Business name.** Sole trader or limited company. If limited, register the name with Companies House.
- [ ] **Awarding body,** once your trainer course is done. It decides what your certificates need to show.

## Things to check

- [ ] **The choking poster and course ads.** Check the steps and "you'll learn" lists match how you teach.
- [ ] **The leaflets.** Wording, photos and the offer card.

## What's in the folder

- **01 Logo:** vector logos (SVG and PDF) for printing, signs and embroidery, plus PNGs and your brand colours.
- **02 Leaflets:** print-ready PDFs (nursery A5, general A5, workplace DL, thank-you card A6), waiting on your phone number.
- **03 Poster:** the choking poster, A4.
- **04 Course ads:** one square ad per course for Facebook and Marketplace.
- **05 Social media:** cover photos, banners and profile pictures.
- **06 QR codes:** website, booking page and workplace quote form.

Passwords and logins I'll go through with you in person, never in a message or document. Any questions, just message me. Ric
